

SHIHO KAWASHIMA
 500 W. 120th Street, 616 SW Mudd, Mail Code: 4709
 New York, New York 10027
 Office phone: 212-854-2701
 E-mail: s-kawashima@columbia.edu

PROFESSIONAL INTERESTS

- Rheology of fresh cement-based systems and processing
- Characterization and development of cement-based systems modified with nanomaterials
- Use of by-products/waste in concrete to reduce carbon footprint

PROFESSIONAL EXPERIENCE

Columbia University, New York, NY, USA *Jan 2018 - Present*
 Associate Professor, Civil Engineering and Engineering Mechanics

Columbia University, New York, NY, USA *Jan 2013 - Dec 2017*
 Assistant Professor, Civil Engineering and Engineering Mechanics

PROFESSIONAL PREPARATION

Northwestern University, Evanston, IL, USA *Mar 2013*

Doctor of Philosophy in Structural Engineering and Materials
 Advisor: Surendra P. Shah

Northwestern University, Evanston, IL, USA *Jun 2009*

Master of Science in Structural Engineering and Materials
 Advisor: Surendra P. Shah

Columbia University, New York, NY, USA *May 2007*
 Bachelor of Science in Civil Engineering and Engineering Mechanics

CURRENT MEMBERSHIP IN PROFESSIONAL ORGANIZATIONS

- Member, American Concrete Institute (ACI)
- Member, American Ceramics Society (ACerS)
- Member, American Society of Civil Engineers (ASCE)
- Member, Engineering Mechanics Institute (EMI)

AWARDS AND HONORS

- NSF CAREER Award, 2017
- Forbes' 30 under 30: Science, 2015

RESEARCH PROJECTS AND PROPOSALS

ACCEPTED COMPETITIVE RESEARCH PROPOSALS

1. "CAREER: Tailoring Rheological Behavior and Interlayer Properties of 3-D Printing Concrete," (NSF 1653419), (06/2017 – 05/2022). *Proposal to National Science Foundation, Arlington, VA. Accepted. (Total award: \$500,000)*

2. “Functional Nano-fibers for Smart Concrete,” (01/2017 – 06/2018). *Proposal for subaward to Konkuk University, Seoul, Korea. Accepted. (Total award: \$150,000)*
3. “Investigation of the mechanisms underlying crystalline waterproofing,” (2015 – 2017). *Proposal to RPM Belgium & Vandex Group, Tielt, Belgium. Accepted. (Total award: \$220,175)*
4. “Elucidating the contribution of thixotropy on the flow curve and critical shear rate of fresh cement mortars,” (2015 – 2016). *Proposal to Provost’s Grants Program for Junior Faculty, Columbia University, New York, NY. Accepted. (Total award: \$25,000)*
5. “BRIGE: Characterizing the rheological and microstructural evolution of oil well cement slurries under elevated temperature and pressure conditions (NSF EEC-1342377),” (2013-2015). *Proposal to National Science Foundation, Arlington, VA. Accepted. (Total award: \$171,796)*
6. “Mitigating external corrosion of pipelines through nano-modified cement-based coatings (US DOT DTPH56-13-H-CAAP06),” (2013 – 2015). *Proposal to U.S. Department of Transportation Pipeline and Hazardous Materials Safety, Washington, D.C. Accepted. (Total award: \$135,774)*
7. “Interaction of Admixtures and its Effect on the Evolution of Thixotropic Breakdown and Recovery of Cementitious Systems (ACI CRC #79),” (2014 – 2015). *Proposal to American Concrete Industry’s Concrete Research Council. Accepted. (Total award: \$10,000)*

SELECT CONFERENCE PROCEEDINGS (*CORRESPONDING AUTHOR)

1. Shah, S.P., J.H. Kim and S. Kawashima*. "Science and engineering for self-consolidating concrete," International RILEM Conference on Advances in Construction Materials through Science and Engineering, Hong Kong, China, September 5-7, 2011.
2. Shah, S.P., S. Kawashima*, P. Hou and D. Corr. "Application of nanoparticles," 3rd International Symposium on Ultra-High Performance Concrete and Nanotechnology for High Performance Construction Materials, Kassel, Germany, Mar 7-9, 2012.
3. Kawashima, S.*, M. Chaouche, D. Corr, and S.P. Shah. "Adhesive properties of nanoclay-modified cementitious materials," 5th North American Conference on the Design and Use of Self-Consolidating Concrete, Chicago, IL, May 12-15, 2013.
4. Kawashima, S.*, M. Chaouche, D. Corr, and S.P. Shah. "Rate of rebuilding of cementitious materials with nanoclays," 5th North American Conference on the Design and Use of Self-Consolidating Concrete, Chicago, IL, May 12-15, 2013.
5. Ma, S. and S. Kawashima*. "A study on the rheological behavior of cements modified with attapulgite clays under elevated temperature and pressure conditions," Fifth International Symposium on Nanotechnology in Construction, Chicago, IL, May 24-26, 2015
6. Ma, S. and S. Kawashima*. "Microstructural evolution of oil well cement with nanoadditive at elevated temperatures and pressures," 14th International Congress on the Chemistry of Cement, Beijing, China, Oct 13-16, 2015.
7. Qian, Y. and S. Kawashima*. "Investigating shear-induced particle migration in fresh cement mortars," RILEM International Symposium on Self-Compacting Concrete (SCC), Washington, D.C. USA, May 15-18, 2016.
8. Qian, Y. and S. Kawashima*. "Use of thixotropy model to capture competition between paste deflocculation and sand particle migration," RILEMS Materials, Systems and Structures in Civil Engineering, Lyngby, Denmark, Aug 21-24, 2016.

INVITED TALKS

1. "Tailoring the rheological properties of cement-based systems for 3D concrete printing," Northwestern University, Center for Sustainable Engineering of Geological and Infrastructure Materials (SEGIM), Evanston, IL, Oct 25, 2017
2. "Tailoring the rheological properties of cement-based systems for 3D concrete printing," University of Illinois at Urbana-Champaign, Champaign, IL, May 3, 2017.
3. "Characterizing thixotropy of fresh cement-based systems modified with clays," California Institute of Technology, Pasadena, CA, Mar 9, 2017.
4. "Characterizing thixotropy of fresh cement-based systems modified with clays," Purdue University, Geo-Institute Graduate Student Organization, West Lafayette, IN, Nov 2, 2016.
5. "Characterizing thixotropy of fresh cement-based systems modified with clays," University of Michigan-Ann Arbor, Ann Arbor, MI, Nov 1, 2016.

6. “Characterizing thixotropy of fresh cement-based systems,” Korea Electric Power Research Institute’s International Workshop on Structural Life Management of Eco-Power Structures, Daejeon, South Korea, Sept 22, 2016.
7. “Characterizing thixotropy of fresh cement-based systems modified with clays,” Ulsan National Institute of Science and Technology, Ulsan, South Korea, Sept 26, 2016.
8. “Characterizing thixotropy of fresh cement-based systems modified with clays,” Georgia Tech, Atlanta, GA, April 8, 2016.
9. “Characterizing the thixotropy of cement-based systems,” University of Houston, Houston, TX, Feb 11, 2015
10. “Characterizing the thixotropy of cement-based systems,” University of Southern California, Los Angeles, CA, Mar 3, 2015
11. “Characterizing the thixotropy of cement-based systems,” City College of CUNY, New York, NY, Feb 24, 2015
12. “Enhancing the fresh and hardened properties of concrete through the use of nanomaterials,” Penn State University, University Park, PA, Apr 25, 2014

SERVICE

PROFESSIONAL

Professional Organization Committee Member

- ACI Committee 238 Workability of Fresh Concrete
- ACI Committee 238-A Student Workability
- ACI Committee 237 Self-consolidating Concrete
- ACI Committee 236 Material Science of Concrete
- ACI Committee 241 Material Science - Nanotechnology of Concrete
 - Subtask Group – Dispersion of Nanoparticles in Concrete Materials (Secretary)
- RILEM Technical Committee Measurement of rheological properties of cement-based materials
- RILEM Technical Committee Digital Fabrication with cement-based materials

Conference Committee Member

- Conference co-chair, ASCE EMI Conference, New York, NY USA, 2020
- Scientific Committee Member, ‘RILEM 2nd International Conference on Rheology and Processing of Construction Materials,’ Dresden, Germany, Sept 8 – 11, 2019
- Scientific Committee Member, ‘RILEM International Symposium on Self-Compacting Concrete (SCC),’ Washington, D.C. USA, May 15- 18 2016.
- Program Committee Member, ‘Fifth International Symposium on Nanotechnology in Construction (NICOM5),’ Chicago, IL USA, May 24 – 26, 2015.

Associate Editor for Refereed Journals

- ASCE Journal of Materials in Civil Engineering

Guest Reviewer for Refereed Journals

- *ACI Materials Journal*
- *Cement and Concrete Research*
- *Cement and Concrete Composites*
- *Applied Rheology*
- *Journal of Engineering Mechanics*
- *Journal of Materials in Civil Engineering*

- *Materials and Structures*
- *Construction and Building Materials*
- *Advances in Civil Engineering Materials*

Reviewer or Panelist for Grant Applications

- National Science Foundation, SBIR/STTR Phase I: Infrastructure, 2016
- National Science Foundation, SBIR/STTR Phase I: Infrastructure, 2016
- National Science Foundation, CMMI Cementitious Materials Panel, 2016
- National Science Foundation, CMMI Cementitious Materials Panel, 2014

DEPARTMENT

- Academic advisor, CEEM 3-2 Combined-Plan Undergraduate students, 2013-present.
- Academic advisor, CEEM Masters students, 2013-present.
- Committee member, CEEM Undergraduate Committee, 2013-present.
- Committee member, CEEM Faculty Search Committee, 2014-2015.
- Panel member, “Navigating the Academic Job Search” for CEEM PhD students, 2013.

UNIVERSITY

- Department Representative, Committee on Instruction, 2016 - Present
- Panelist, Distinguished Outcomes: Columbia Engineering Alumni Panel, 2015, 2016
- Egleston Scholar Mentor, 2016 – present
- Faculty Speaker, Columbia Engineering New Student Orientation Program: Academic Assembly, Sept 1, 2015
- Panelist, Faculty Round Table and Department Conversation, Columbia Engineering Women’s Forum, 2013, 2014, 2016.
- Panelist, Women in Science & Engineering (WISE) conference, Nov 16, 2013.
- Speaker, Engineering Achievers in Graduate Education (EngAGE), Mar 1, 2013.

COMMUNITY

- Workshop Organizer, ‘Engineering Exploration Experience,’ Society of Women Engineers, Columbia University, 2013 – Present.
- Program Co-Organizer and Workshop Organizer, “The Multiple Scales of Civil Engineering: From Materials to Structures to Cities,” ‘Engineering and Applied Science,’ Johns Hopkins Center for Talented Youth (CTY) Program, Columbia University, September 20, 2014.

TEACHING/ADVISING

COURSES TAUGHT (# OF STUDENTS, COURSE EVALUATION, INSTRUCTOR EVALUATION)

- Experimental Mechanics of Materials (ENME E3114):
 - 2014y – 37 students, 4.2/5, 4.9/5;
 - 2015y – 38 students, 4.6/5, 4.8/5;
 - 2016y – 24 students, 4.6/5, 4.8/5;
 - 2017y – 25 students, 4.4/5, 4.9/5;
- Elastic and Plastic Analysis of Structures (CIEN E4021):
 - 2013x – 41 students, 3.7/5, 4.1/5;
 - 2014x – 57 students, 3.9/5, 4.3/5;

- 2015x – 25 students, 4.4/5, 4.7/5;
- 2016x – 36 students, 4.6/5, 4.7/5;

STUDENTS ADVISED

Research assistants:

- AlaEddin Douba, PhD candidate, Sept 2017 – Present
- Siwei Ma, PhD student, Jan 2014 – Present
- Ye Qian, PhD student, Sept 2013 – Dec 2016 (graduated)

MS students:

- Yixi Tian, MS student, Jan 2017 – Present

Postdoctoral researchers:

- Sujin Lee, PhD Konkuk University, Korea, Jan 2016 – Present
- Seungmin Lim, PhD University of Illinois Urbana-Champaign, Aug 2015 – July 2017

Visiting researchers:

- Veronica Guerini, University of Brescia, Italy, Jun 2016 – Dec 2016
- Nico Obermeier, B.Sc Universität der Bundeswehr München, Germany, Apr 2016 – Present
- Antonin Chapelon, M.S. Candidate ENS de Cachan, France, Oct 2015 – Present

NSF SEGUE scholars:

- Deborah Owolabi, B.S., M.S. Candidate, Jan 2016 – Aug 2016
- Odanis Rosario, M.S., Jan 2014 – Aug 2014

NSF Summer REU students:

- Jumari Austin Robinson, B.S. Candidate, May 2015 – Aug 2015
- Maika Yzabelle Abdallah, B.S, Sept 2013 – Dec 2014

High school students:

- Iyin Tugbobo, Elmont H.S., Jun 2017 – Aug 2017, Jun 2018 – Aug 2018
- Augusta Uwamanzu-Nna, Elmont H.S., Jun 2015 – Sept 2015

DOCTORAL COMMITTEE MEMBER

- Xin He (2017). *Fracture Mechanics and Failure of Multilayered Materials and Structures*.
- Matthew Sloane (2016). *Fire Effects on Suspension Bridge Main Cables: Methods for Determining Both Temperature and Strain Distributions Within an Exposed Cable*.
- Madeleine Lopeman (2015). *Extreme Storm Surge Hazard Estimation and Windstorm Vulnerability Assessment for Quantitative Risk Analysis*.
- Jang, S-H, graduate. (2015). *Characterization and modeling of ferromagnetic particulate nanocomposites for strain sensing. (Chair)*
- Wei, J, graduate. (2014). *Durability of cement composites reinforced with sisal fiber*.
- Benowitz, BA, graduate. (2013). *Modeling and simulation of random processes and fields in civil engineering and engineering mechanics*.
